Professional Summary

An accomplished **Software Engineer (Flutter)** with extensive experience in **mobile application development** using **Flutter and Dart**, specializing in building scalable, high-performance applications across international markets including **Canada, India, and Nigeria**. Skilled in **RESTful API integration**, **secure data handling**, and **cloud services** like **Firebase** for authentication and storage. I am passionate about emerging technologies, particularly **Augmented Reality (AR)** and **Virtual Reality (VR)**, and adept at delivering user-centric solutions while ensuring industry-standard security compliance.

Professional Experience

Software Engineer (Flutter)

Sterling Bank Plc - Remote

Lagos, Nigeria

Feb 2024 - Present

- Led the development of new product architectures using **clean architecture** and **MVVM design patterns**, improving code maintainability and scalability.
- Enhanced system security by implementing **bank-level security policies**, ensuring **secure end-to-end communication** between mobile applications and servers.
- Optimized **API integration** processes, established multi-environment handling, and implemented **secure token management** for seamless authentication.
- Designed and managed a **robust local database** solution, improving data access speed and offline capabilities.

Project:

AltConnect – A multi-functional app for **community engagement**, **payments**, and **visitor access**.

Software Engineer (Flutter)

PaySprint Inc – Remote

Ontario, Canada

Jan 2024 - Present

- Spearheaded the seamless onboarding of new developers by improving codebase clarity and maintaining comprehensive documentation.
- Oversaw **app deployment** processes for **Android** and **iOS** platforms, ensuring efficient **CI/CD** practices.
- Enhanced **transaction performance**, improving user experience by optimizing app responsiveness and reducing latency.
- Led project management efforts, ensuring **on-time delivery** while coordinating technical resources and defining project roadmaps.
- Integrated third-party payment gateways, including **Flutterwave**, **PayPal**, enabling secure and efficient financial transactions.

Project:

PaySprint – A global financial platform enabling **domestic and international money transfers** and seamless invoice payments. Deployed across multiple countries.

Data Specialist

The Maple Minute (Contract) – Remote

Ontario, Canada

Oct 2023 - Dec 2023

- Collected and analyzed data from high school sports events, ensuring comprehensive and accurate datasets.
- Cleaned and validated large datasets to ensure **data integrity** and improve analytical outcomes.
- Produced detailed data reports and interactive visualizations using **Excel**, **Tableau**, and **Power BI** for stakeholder presentations.

Software Engineer (Flutter)

Lagos State Government (Ministry of Science & Tech)

Lagos, Nigeria

Jun 2022 – Dec 2023

- Developed pixel-perfect mobile interfaces using the **Flutter** framework, ensuring consistency across devices.
- Collaborated with backend teams to integrate complex APIs, adhering to modern engineering best practices.
- Created reusable **image services**, enhancing efficiency in UI development and consistency across screens.
- Authored **comprehensive documentation** for various projects, facilitating smooth knowledge transfer and long-term project sustainability.

Education

Lagos State University (LASU)

Bachelor of Science (B.Sc) in Computer Science , *Lagos, Nigeria*

Certifications

- **Flutter Developer** – Walure Capital ([Certificate Link](#))
- **Soft Skills Training** – Jobberman Nigeria ([Certificate Link](#))

Technical Skills

- **Mobile Development:** Flutter, Dart
- **API Integration:** RESTful APIs, Third-party Services
- **Database Management:** Firebase, Local Database Optimization, SQLite
- **Cloud Services:** Firebase Authentication, Cloud Storage, Azure , Supa Base
- **Project Management:** Agile Methodologies, CI/CD Pipelines
- **Data Analysis:** Excel, Power BI

Languages

- English (Fluent)
